MITSUBISHI HC CAPITAL

FOR IMMEDIATE RELEASE

FY2025 Results for the Environmental Targets (Metrics) Set Out in the "Transition Plan toward the Realization of a Carbon-Neutral Society"

Tokyo, November 20, 2026 --- Mitsubishi HC Capital Inc. (TSE: 8593; Representative Director, President & CEO: Taiju Hisai, the "Company") has announced the FY2025 results for the environmental targets (metrics) set out in its "Transition Plan toward the Realization of a Carbon-neutral Society" *1 (the "Transition Plan").

■ FY2025 Results for the Environmental Targets (Metrics) Set Out in the Transition Plan*2

Metrics	FY2025 Target	FY2025 Result	FY2031 Target *3
The Group's Consolidated Scope 1 and 2 (market basis) GHG Emissions *4	7,904t-CO2e	**3,180t-CO2e (71.8% decrease compared to FY2019)**	3,218t-CO2e
Percentage of New Generation Aircraft in Our Portfolio *5	78%	**78.9%**	83%
Percentage of Green Buildings in Our Portfolio *6	47%	**62%**	66%
Total Volume of New Lease Transactions for Decarbonization-related Assets *7	JPY23.0Bn	**JPY38.1Bn**	JPY121.8Bn
Power Generation Capacity in Operation Corresponding to the Group's Stake *8	Approx. 1.4GW	**1.2GW**	Approx. 2.5GW

The Company has achieved its FY2031 greenhouse gas (GHG) emissions target ahead of schedule, as well as its FY2025 targets for the percentage of new-generation aircraft in its portfolio, the percentage of green buildings in its portfolio, and the total volume of new lease transactions for decarbonization-related assets.

While the percentages of new-generation aircraft and green buildings may fluctuate in the short term due to asset acquisitions and dispositions, the Company is implementing initiatives to increase these percentages over the medium to long term.

As the Company has achieved its FY2031 GHG emissions target ahead of schedule,

the Company is considering a new interim target toward achieving net zero by 2050. Although the renewable power generation capacity in operation attributable to the Company Group's ownership interests fell below the FY2025 target, the capacity, including, that of projects under development, was broadly in line with the target.
Going forward, the Company Group will further strengthen its decarbonization initiatives and contribute to the realization of a sustainable society.

*2 For details of the FY2025 results for the environmental targets (metrics) set out in the "Transition Plan toward the Realization of a Carbon-neutral Society," please see the PDF below.
https://www.mitsubishi-hc-capital.com//english/news/assets/pdf/2026112012.pdf
*3 The FY2031 targets were established by backcasting from the goal of achieving carbon neutrality by 2050 and in consideration of the Company's vision for FY2031.
*4 The FY2031 target reflects changes accompanying the formulation of the Medium-term Management Plan for FY2026-FY2028.
*5 Fuel-efficient aircraft that emit less CO2 than previous-generation aircraft.
Models: A220, A320NEO, A321NEO, A330NEO, A350, B737MAX, B787. Targets and results are both calculated based on net book value (Jackson Square Aviation business).
*6 In the real estate business, the share (number of buildings) of environmentally certified properties (CASBEE, DBJ Green Building, BELS, etc.) or buildings using 100% renewable energy among assets over which the Group has some degree of control (Mitsubishi HC Capital Realty's investment properties) and assets under management by the Group's asset management companies with Mitsubishi HC Capital acting as a sponsor (Mitsubishi HC Capital Realty Advisers' private REITs and CenterPoint Development's private placement funds)
*7 Total volume of lease transactions primarily involving the following equipment (GX Assessment Lease) for FY2024 and beyond:
- Equipment expected to have CO2 reduction effects and therefore may qualify for green finance
- Energy-environment friendly products
- Machinery for the ESG lease promotion business

*8 Power generation capacity corresponding to the Group's stake in the domestic renewable energy business

■About Mitsubishi HC Capital Group

Mitsubishi HC Capital Group (Mitsubishi HC Capital Inc.; TSE: 8593) employs approximately 8,000 people worldwide and operates leasing and financing businesses in over 20 countries, primarily serving corporate customers.
The Group provides a wide range of solutions, covering various equipment, machinery and vehicles, as well as aircraft, marine containers and railcars. Moreover, it has expanded its business domains to include areas such as real estate revitalization and renewable energy.
Through these businesses, Mitsubishi HC Capital Group works together with its customers and partners to create new social value, contributing to the resolution of social issues and the realization of a sustainable and prosperous future.
