MITSUBISHI HC CAPITAL

FOR IMMEDIATE RELEASE

Notice Concerning Nature-related Information Disclosure Based on the TNFD Recommendations

Tokyo, August 3, 2026 --- Mitsubishi HC Capital Inc. (TSE: 8593, Representative Director, President & CEO: Taiju Hisai, “Mitsubishi HC Capital”) today announced that it has disclosed information based on the recommendations of the Taskforce on Nature-related Financial Disclosures ("TNFD").

The TNFD is a global initiative that establishes a framework enabling companies, such as financial institutions, and organizations to appropriately assess and disclose risks and opportunities relating to natural capital and biodiversity. The Mitsubishi HC Capital Group has organized the relationship between its business activities and nature, analyzed its dependencies and impacts on nature as well as nature-related risks and opportunities, and structured its disclosure in line with the four pillars of the TNFD recommendations: governance, strategy, risk and impact management, and metrics and targets.

Mitsubishi HC Capital Group recognizes that natural capital, along with climate change, is an important theme that may have medium- to long-term impacts on business activities and on the sustainability of society and the economy. In the value creation story of the "Medium-term Management Plan for FY2026-FY2028 (the '2028 MTMP')," Mitsubishi HC Capital Group positions "natural capital" as one of its forms of non-financial capital. Going forward, Mitsubishi HC Capital Group will further deepen its understanding of natural capital and biodiversity and strive to create environmental and social value through its business activities.
