

Supporting the Education of Future Generations

To contribute to future society by nurturing the younger generation, Mitsubishi UFJ Lease & Finance provides extensive educational support.

Program Offering Rooms in Company Dormitories to Exchange Students

Since 2015, we have taken part in a program for providing economic support to exchange students by placing them in company dormitories or housing spearheaded by the Association for Promoting Corporate Support for Exchange Students. We continue to support exchange students through this program, thereby promoting mutual understanding between people in Japan and individuals from around the world.

Job Shadow Program

Together with Junior Achievement Japan and the Tokyo Metropolitan Board of Education, we have implemented the Job Shadow work experience program since 2008. In this program, high school students are assigned an employee to "shadow" in order to gain an understanding of the meaning of work and a professional attitude so that they can use this insight in deciding their future career path.

The TOMODACHI Initiative

Since 2012, we have joined with companies of the Mitsubishi UFJ Financial Group to take part in the TOMODACHI Initiative organized by the U.S. Embassy and the U.S.-Japan Council. As part of this initiative, we run the TOMODACHI MUFG International Exchange Program, which allows Japanese students affected by the Great East Japan Earthquake and U.S. students to interact with each other through cultural exchange activities and home-stays opportunities. The Japanese students are also given the chance to take part in educational programs as a way of motivating them to work or study overseas or take part in other forms of cultural exchange in the future.

Social Investment

To achieve harmony between efforts to regenerate Japan's forests and business activities, the Mitsubishi UFJ Lease & Finance Group has been collaborating with the Gifu Prefecture Union of Forestry Cooperatives and other partners in a forest and forestry regeneration project since 2010. Creating frameworks in which regional forestry initiatives can function as a business requires performing production control and administration based on private-sector management expertise. We are utilizing our leasing and financial expertise to support new forms of forestry management.
